

# California Faucets Adds Third Facility to Accommodate Continuing Growth

Award-winning innovation and stellar customer service drive rapid expansion

**(Huntington Beach, CA, December 19, 2016)** To meet continued and accelerating growth, California Faucets has recently expanded its operations to include a third manufacturing facility. The new building that opened on December 1, 2016 is located near the company's current headquarters in Huntington Beach. Adding 20,000 square feet of additional space, the new facility will significantly boost production and warehousing capacity, thus enabling the company to scale up for anticipated future growth.

"We've been blessed with double digit growth since 2010, on the heels of the recession," says Jeff Silverstein, California Faucets president and CEO, who notes that the added facility brings their operating space to more than 80,000 square feet. "We believe our upward momentum is due to our focus on bringing truly innovative products to market, as well as a company culture of award-winning customer service," says Silverstein, who notes that superior customer service and fast delivery has been a hallmark of the company since its founding in 1988.
